MUMBLE...

...ant to

I can hear a faint voice...

Ho... me...

mumble...

mumble...

Iw vant... hto... go hrom... hic...

So? What do you say? If you don't need her, I'll contact someone else.

I'LL. TAKE. HER.

I was just in need of this for my drug and the part that I'm looking for seems to be in good condition.

I'LL PAY YOU EXTRA so please keep this a secret.

How many times have her small cries been repeatedly trampled on? Using the body of an elf to create the panacea is just a baseless rumor, the drug doesn't even exist in the first place. And what vexes me more is that the asking price the pawnbroker made is so much cheaper than a whole livestock.
